### Motor Specs:

24lb Thrust  
12v battery compatible  
Forward/Reverse - High and Low speeds  
-Low Speed ideal for trolling  
10.5" Shaft length  
Weight = 6 lbs.

### FAQS:

How long will the motor last?  
35AH Battery - 5 hours  
70AH Battery - 9+ hours

We recommend buying an AGM Type Battery, we find at trolling speeds we can get 2 days fishing, trolling from it!

### How do I connect it to a battery?

Each motor will have a positive and negative clip that will clamp onto any battery terminal.

### What kind of battery do I use?

We recommend a 12 volt deep cycle marine battery only.

### Is the battery included?

No, we cannot ship batteries. You can purchase one from any local big box store.

### Other optional items included:

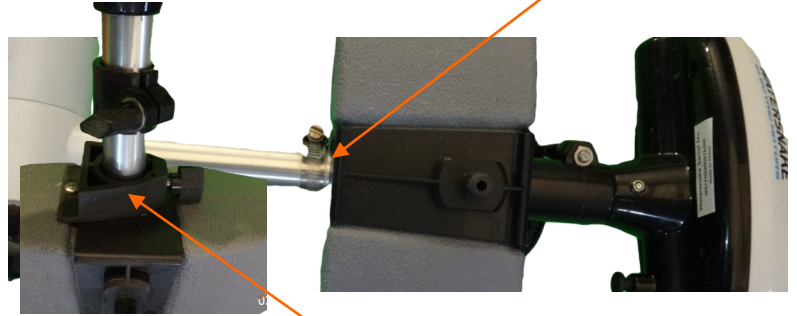

Transom mount included to be used with custom transom mounts on any kayak.

Plus theirs is an inferior system with a cheap "GEAR CLAMP" holding it at the bottom of the Hobie cassette.

Unlike ours with a properly mounted bracket for adjusting motor height!  
As Well our Units the Hobie Adapters Are FILLED with a high density foam, their units are just a hole drilled through and the shaft inserted, so while your using it, the adapter fills with water!! And Hence when you remove it, its leaking water all over you and your kayak!

Freshwater or Saltwater Ready!! WHILE SUPPLIES LAST!! These are selling quick!

### Fits for Hobie Mirage Drive Kayaks!

Other Styles Available upon Special request  
.We have modified a Watersnake 24lb thrust motor to work with hobbies!!

So you can save your energy for catching fish!
