

Kayaks

We are a stocking dealer for the Winner Brand of Kayaks, after much searching and studying of different brands and quality out there for other Kayaks, I choose to carry the Winner Brand for an alternate line of Kayaks.

Winner has a very diverse line up of kayaks, as an entry level, or professional level of kayaking all of which are a reasonable and competitively priced.

While these are an "Off Shore" product & Kayak, like most of the big box stores are as well, in my researching I found them to be a good quality and nice product for the price point.

And considerably better quality product than many of that of the big box stores.

While we can't stock the entire lineup of Winner Kayaks, we stock the most popular line of their fishing style Kayaks, and within few days notice can have any of their other products here by special order.
