

Streamline PC's Website Design & Hosting Pack

Custom Website Design

Save your time and money, have a website designed to suite your needs and business. All websites are designed from scratch, fully customized, and 100% compatible across all devices; Mobiles, tablets, notebooks, and desktops. Supply your own images, or have us use our stock image database. All websites are yours after completion, transferable to any host or domain, Or simply request the site loaded onto a jump drive for later use.

*Design Package Starts @ \$300.00 – One-Time Fee
(5-8 page Site Depending on Content)
Call, email, or text, for a free quote on a fully customized website.*

Take Control of Your Website

All websites come with a design interface to allow you to make changes to your site and upload new content anytime you wish. Divided into blocks and sectioned, adding new images, events, or special promotions takes minutes. Decided you want some more features added later? No problem, any changes you don't have time to make your self we can do for you with ease, at an extremely low hourly design rate.

Needs us to host your website, manage domain names, or domain transfers? Hosting provided by GreenGeeks gives you the best foundation to host your website. Stored on cutting-edge solid state drives configured in a redundant RAID-10 storage array. Ultra-optimized web & database servers allow for blazing fast data read/write, serving pages up to 50 times faster. Company is rated at 300% renewable energy. Reselling extra electricity at a very low cost. Providing clean cheap service, and lowering your hosting costs.

Secured HTTPS / DNS

Get your sites domain secured with HTTPS. New browsers are aggressively marking sites without secure connections. Even now some major sites are losing traffic to insecure connection warnings.

Make sure you aren't losing traffic to link warnings and HTTPS redirects, and guarantee your sites traffic and customer data is safe.

Provides an array of hosting, database, and e-commerce options. Take advantage of third-party software for blogs, bulletin boards, guest books, eCommerce, and more to build a robust, dynamic site.

Complete package setup, starting at \$450.00. Includes Website Design, 1 year of hosting, 1 Domain Name, secure connection, Google Analytics, 5 email accounts, and much more.

Annual Hosting fees start at \$130.00. Call, email, or sms(text) for a quote on any of our website services. You should get what you want from your services, happy to answer any questions or concerns related to web hosting, design, domains, and pricing. Hope to hear from you soon!
