

Streamline PC's

Web Search, Security, and Analytics Optimization Pack.

You want to be found and we want to help. Track your site's search performance with **Google Search Console** and our additional webmaster resources.

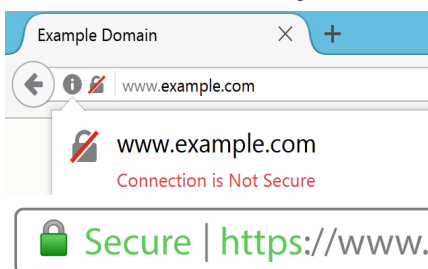

With Google Analytics, you can uncover the insights that drive real results. Analytics gives you comprehensive digital tools to help you better understand your customers and evaluate your site, content, and products.

Powering over 38% of managed DNS domains, **Cloudflare** runs one of the largest authoritative DNS networks in the world. With an average of a few milliseconds query speed, we have the fastest performance of any managed DNS provider. DNS updates happen within seconds, making DNS propagation delays a thing of the past.

Encrypting as much web traffic as possible to prevent data theft and other tampering is a critical step toward building a safer, better Internet. **Cloudflare** is the first Internet performance and security company to offer SSL protection free of charge.

Unsecured HTTP / DNS

Get your sites domain secured with HTTPS. New browsers are aggressively marking sites without secure connections. Even now some major sites are losing traffic to insecure connection warnings.

Make sure you aren't losing traffic to link warnings and HTTPS redirects, and guarantee your sites traffic and customer data is safe.

Secured HTTPS / DNS

Take control of your Website, Complete package setup, starting at \$60.00.
Includes search console, DNS, secure connection, Google Analytics setup.

Want us to manage your search settings and DNS security?
Annual Management fee of \$50.00.
Includes automatic Quarterly, Semi-Annual, or Annual reports.
Reports on demand available in 1-5 business days. (usually instant)
